## Decision Making

Guide for Curriculum Unit 80.06.03  
by Ronald Byrd

This unit hopes to open the minds of students on the importance of making a decision. The five steps in making a decision will be explored in this unit. Minor and major decisions will be discussed. The difference between the two will be defined. Students will learn how a value has a great deal to do with the type of decision they will make in life. Lesson Plans are given in this unit so students can actually make a decision and be questioned on why they chose a particular alternative over another. Knowing what an alternative is and how to apply different alternatives in different situations will be discussed.

(Recommended for 9th through 12th grade, all courses.)

### **Key Words**

*General Psychology Counseling*
