1980 Volume VII: Problem Solving

Problem Solving for the Ninth Grader

Guide for Curriculum Unit 80.07.03
by Paul V. Cochrane

This paper contains some of my thoughts on problem solving. In it I show you the reader how my class and I try to solve problems. The solutions range from the easy one to the harder ones. Sketches are presented as they might be found on my blackboard. The paper is part me and part the student, sometimes it's hard to tell us apart.

(Recommended for 9th grade Algebra I and IA.)

Key Words

Logic Mathematics Set Theory
