Family Finances

Guide for Curriculum Unit 82.06.13
by Joyce Bryant

This unit examines a major element in family structure, economics. It is designed to give students knowledge about family finances and to improve their math skills for use in everyday life. The unit will be taught to seventh and eighth grade middle-school students. It can be taught to students on a high-school level, and would be especially useful for those who are getting married after high school.

(Recommended for 7th and 5th grade Mathematics.)

Key Words

Financial Management Family Life Basic Consumer Applications Mathematics
